2009 ANNUAL CONFERENCE

October 4-6, 2009

Dolce Valley Forge
King of Prussia, PA
www.planningpa.org

- ▶ **Earn up to 13.5 CM credits** including Law and Ethics requirements
- ▶ **Pitkin Lecture with Jeremy Nowak**, The Reinvestment Fund
- ▶ **Opening Session with Tim Beatley**, University of Virginia School of Architecture
- ▶ **Plenary Session with Sandy Wiggins**, Consilience, Inc.
- ▶ **Two and a half days** of Educational Sessions
- ▶ **Welcome Reception** at the Valley Forge National Park Welcome Center
- ▶ **Monday Evening Reception** featuring The Flying Mangos
- ▶ **PA Chapter Annual Awards, Posters** Sessions and Mobile Workshops
- ▶ **PA Chapter of APA Golf Outing** at Raven's Claw Golf Club
- ▶ **New Green Meetings Initiatives**

▶ 100% ONLINE

NEW 100% ONLINE OPTIONS AT CAL U TO ADVANCE YOUR EDUCATION AND PROFESSIONAL DEVELOPMENT

In just 12-24 months*, you will prepare yourself for an exhilarating career in the ever-evolving fields of tourism research, planning and development. We realize that busy schedules may not allow for the completion of the entire master's program. That is why we are proud to offer the 18 credit Post-Bachelor's Certificate, allowing you to invest in your professional development without commitment to the entire program. Of course, upon completion of the certificate program, there is the option for you to apply those credits toward the completion of the revised 30-credit master's program. Cal U is an affiliate member of the World Tourism Organization's Education Council, which is comprised of worldwide leading tourism education institutions. This means you get an education of the highest quality, from one of the world's leading tourism education institutions. At Cal U, you'll find the curriculum unique, the flexibility a relief and the coursework captivating. To learn more about Cal U's Post-Bachelor's Certificate program and the newly revised Master of Arts Tourism Planning and Development program, check us out at www.cup.edu/go/tourism or call 866-595-6348.

*The programs are designed for a student to complete in 12 months for the Post-Bachelor's Certificate and 16-24 months for the Master of Arts in Tourism Planning and Development Program. Changes to the proposed schedule can lengthen or shorten the program's duration.

California University of Pennsylvania
250 University Avenue
California, Pennsylvania 15419

California University of Pennsylvania's Global Online program offers a high-quality educational experience that is tailored to fit into your schedule. It is 100% online and has no classroom requirement. This gives you the freedom and flexibility to complete your academic program, gain valuable experience in the marketplace and live your life, all at the same time.

WELCOME TO VALLEY FORGE...

2009 PA Chapter of the American Planning Association Annual Conference

ON BEHALF OF THE 2009 CONFERENCE COMMITTEE of the Pennsylvania Chapter of the American Planning Association, we welcome you to Valley Forge.

The Delaware Valley exemplifies the theme of this year's conference: **Investing in a Sustainable Future**. Smart Growth initiatives, including cooperative planning ventures, smart transportation improvements, innovative affordable housing and economic development tools, and green technology, have emerged as critical issues facing Pennsylvania. The sessions and mobile workshops offered by this year's conference serve as a challenge to planners across the Commonwealth as we work towards planning practices that prepare communities for a sustainable future.

Going Green. We are a Green conference. Use of recycled products, local foods, water coolers, and a significant reduction in waste materials sets the standard for local municipal practices as well as for future conferences. We hope you will join us in reducing waste at the conference. Reduction in materials and energy will save both money and the environment.

We invite you to experience the richness of our history, the birth place of our Nation, and encourage you to immerse yourself in the Conference itself, which offers a wide range of workshops and events to increase your knowledge and awareness of contemporary planning practices and policies.

Sincerely,

Co-Chairs of the 2009 Conference Committee:

Graciela Cavicchia, AICP

Brian O'Leary, AICP

David D. Ward, AICP

Proud to Support the APA Pennsylvania Chapter 2009 Conference

Since 1946, McCormick Taylor's community of transportation engineers, planners, environmental specialists and communication experts have responded to our clients' most challenging and complex projects by saying, "Yes. We can do that."

Yes. We can do that.

Our planning services include:

- Community & regional comprehensive planning
- Transportation corridor land use planning
- Transit-friendly development planning
- Urban design studies
- Landscape architecture
- Environmental studies
- Geographic information systems & cartography
- Visioning & community consensus building

URBAN DESIGN + PLANNING

UNIQUE INSIGHT INTO DEVELOPING EFFECTIVE SOLUTIONS

Through innovative design, HNTB strives to balance human needs and cultural influences with the natural world. The result is an artistic expression of the human spirit conveyed in form, scale, color and texture and fitted into the character of each site. The foundations of our approach are an appreciation for quality and an understanding of the timelessness of sophisticated design.

For more than 90 years, HNTB has been shaping the environment with our mix of urban planners, landscape architects, transportation planners, environmental planners and scientists. Together, they provide a multi-disciplined team that is well positioned to lead communities in new directions using 21st Century planning practices and policies. **BUILDING STRONGER COMMUNITIES BEGINS HERE.**

SUPPORT THE NEXT GENERATION OF PLANNERS!

THE PRICE OF EDUCATION, along with everything else, is rising rapidly. Students in planning education programs are working even harder not only to succeed academically, but to find the resources to cover the cost of their education. **YOU CAN HELP!**

Support the PA Chapter **Scholarship funds – the Spaulding Fund and the Pitkin Fund** – with three opportunities at this year's conference:

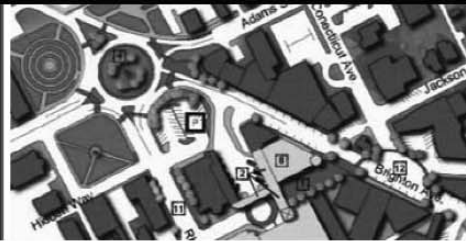

- ▲ **At conference registration**, choose to make a tax deductible contribution to the scholarship fund. Simply drop your donation in the scholarship box.
- ▲ **Following Monday's evening reception**, join all your old and new friends at Kildare's Irish Pub for drinks and snacks and a rousing match of the popular pub trivia game Quizzo! Test your brainpower and compete for prizes with a few rounds of Quizzo, or just socialize and enjoy the surroundings. The admission price includes two drink tickets and complimentary snacks. The proceeds will benefit both funds.

- ▲ **While you are at the conference, please be generous** with your purchase of tickets for the raffle auction. Generous donors will contribute everything from weekend getaways to gourmet food baskets to art. Counties contribute baskets filled with wonderful and diverse offerings of their locale. Tickets will be on sale during registration, meals, and breaks. Winners will be selected at the conference and announced during the Tuesday lunch. You will be supporting a worthwhile cause, and you may go home with some wonderful prizes!

ABOUT THE CONFERENCE

About the Sessions and Certification Maintenance Credits:

- ▲ **Application has been made to APA** for approval for Certification Maintenance (CM) credits for all of the general sessions and most of the workshops at this year's conference. **A total of 13.5 CM credits may be earned**, depending on workshops chosen. Both Law and Ethics CM credits are offered.
- ▲ **The list of approved sessions will be posted** on the PA Chapter website, www.planningpa.org, once approval is received from APA.
- ▲ **Courses approved by APA for CM credit** are also accepted by the Commonwealth of PA for landscape architect continuing education.
- ▲ **Any session may be cancelled or rescheduled** because of low registration or other unforeseen circumstances. Changes or cancellations will be noted in the final program that will be distributed at the conference.
- ▲ **Conference materials will be provided this year in printed form and on flash drives** sponsored by URS Corporation. We recommend you bring a briefcase or messenger bag if you would like for conference materials.
- ▲ **The PA Chapter of the American Planning Association is not responsible** for the materials or opinions of the speakers you will hear.

Conference Etiquette:

- ▲ The **Dress Code** for the conference is business casual attire. Plan to be comfortable while recognizing that this is a learning environment.
- ▲ Please place **cell phones** and other devices that make noise in "silent" mode during sessions. If you must take a call, we ask that you exit the session as unobtrusively as possible and take the call in the corridor.
- ▲ Please be considerate of other conference participants who may have **allergies or sensitivities to fragrances**. If your fragrance is strong, please consider using less of it, or not using it during the day.
- ▲ **Room temperatures** are difficult to regulate. We recommend you dress in layers so you can add or remove a layer for your personal comfort.
- ▲ The conference is a **non-smoking event**. Smoking is not permitted at any conference event, including mobile workshops.

Greening the Annual Conference:

In keeping with this year's conference theme "**Investing in a Sustainable Future**," the conference committee has established a number of sustainability initiatives to reduce our impact on the environment:

- ▲ **Purchase products** made from recycled, recyclable, and rapidly renewable materials.
- ▲ Work with the hotel and caterer to **purchase local foods** and plan a seasonal menu.
- ▲ Prominent on-site effort to **increase recycling** of cardboard, paper, plastic bottles, and cans.
- ▲ **Donate excess food** to a food rescue agency.
- ▲ Encourage exhibitors to **use products made from recycled**, recyclable, and rapidly renewable materials.
- ▲ **Water coolers** in the meeting rooms in lieu of bottled water breaks.
- ▲ Selection of a hotel with a **strong green initiative**, including significant efforts to reduce waste and energy consumption, a linen reuse program, and an on-site "green team."

Be a part of Greening the Annual Conference by participating in the following ways:

- ▲ **Participate in the hotel's linen reuse program** (sheets and towels). Information can be found in the guest rooms.
- ▲ Register for the conference online to **save postage and paper costs**.
- ▲ **Consider public transportation** and carpooling.
- ▲ **Return waste paper** to conference registration for **recycling**.
- ▲ **Use your eco-friendly Flash Drive!** The conference flash drives do not contain any toxic materials such as lead, mercury, hexavalent chromium, PBB or PBDE. These toxins have been identified as the most common and harmful toxins in electronic components. The use of lead-free solders in eco friendly USB flash drives allows the drives to decompose without contaminating water with toxic lead.

About the Final Program:

The 2009 Annual Conference Final Program is printed on Roland Opaque30 Smooth Bright White 70# and contains FSC certified 30% post-consumer fiber. This paper is EcoLogo and FSC Mixed Sources certified and is manufactured using renewable biogas energy. Roland papers are produced by Cascades, an environmentally friendly company whose paper production practices save 30 million trees a year.

MEET THE ECO-HAPPY HYBRIDS OF SEPTA.

It's true. SEPTA can proudly say it has an impressive fleet of Hybrid Buses already out on the streets. But how do they work, you ask?

SEPTA's Hybrid Buses have the ability to refresh their own battery banks by using the normally wasted energy of braking. When the brakes are applied, the energy normally dissipated as heat in a conventional bus is redirected to charge the energy storage system installed on the roof to help power the bus. The introduction of these Hybrid Buses has allowed SEPTA to significantly reduce engine exhaust emissions and increase fuel economy.

But the Hybrid Buses are only one facet of all the good SEPTA is doing on the green front. Read on for more of SEPTA's campaign for emitting less bad stuff, and more feel-goodness.

WHY RIDING SEPTA ISN'T JUST ENVIRONMENTALLY CONSCIOUS, IT'S A NO-BRAINER.

SEPTA's standard buses deserve some energy-efficient love too. That's because all of SEPTA's standard buses use ultra clean low-sulfur fuel. And don't forget that taking any of SEPTA's travel options, from the subway to the trolleys, means a lighter carbon footprint for our area and the world.

It all adds up to arguably one of the most energy efficient large-city public transit systems in the nation. It's true – you literally go green by taking SEPTA.

STILL NEED CONVINCING? Check Out These Green Facts From the Clean Air Council:

- ▲ A big bus with just seven passengers is more fuel-efficient than the average car. A full bus? Six times more efficient. A full train, 15 times more efficient.
- ▲ If one in ten Americans used public transportation regularly, U.S. reliance on foreign oil could be cut by more than 40%.
- ▲ Public transit produces 95% less carbon monoxide (CO) per passenger mile than private vehicles.
- ▲ In Philadelphia, just 3.5% of CO emissions come from diesel-powered vehicles such as SEPTA's standard buses. Whereas gas-powered cars give off 63%.

Commuting On SEPTA Makes a World of Difference.

Tee Times
10:30a – 10:50a

PA Chapter of APA Open Golf Outing ***Raven's Claw Golf Club***

Located in Limerick Township, Montgomery County, Raven's Claw Golf Club is one of several new golf and residential communities in Southeastern Pennsylvania. The course has a variety of hole styles, many of which have been carved from rolling hills and mature wooded areas that require creative shot-making with stunning views. The course is ranked in the Top 10 in Pennsylvania by Golfweek magazine and on the Top New Courses in the United States by Golf Digest magazine.

The cost is \$70.00 which includes greens fees and a cart. Register for the golf outing on the conference registration form. You will be notified of your tee time. If you have a preferred foursome, please note that information on the registration form.

Guided Tour of Valley Forge National Historic Park**

Originally established in 1893 as the first state park in Pennsylvania, Valley Forge National Historical Park is a 3,600-acre expanse of rolling hillsides that was incorporated into the National Park Service system on the United States Bicentennial, July 4, 1976. Through its collection of historical buildings, recreated encampment structures, memorials, museums, and recreation facilities, the National Park Service continues to promote, preserve, and interpret the site of George Washington and the Continental Army's winter encampment.

A guided tour of the park will be available prior to the reception. Meet at the Welcome Center reception desk at 5:30 p.m.

***Additional fee applies for the tour. Please see the registration desk to sign up.*

Transportation for the tour will be available between the Dolce Valley Forge Hotel and Valley Forge National Historical Park. Pick-up will be at the front of the hotel at 5:00p.

Featuring a Menu of Seasonal Local Foods

Join us for this year's opening reception held at the Welcome Center in the Valley Forge National Historical Park. Enjoy an enticing mix of seasonal local foods and drinks while socializing with new and old friends alike in the midst of exhibits that capture crucial moments of our nation's history. Engage in the site's history as you encounter George Washington or experience the tribulations of the Continental Army's winter encampment of 1777-78 with the film *Valley Forge: A Winter Encampment*.

A shuttle bus will make continuous loops to and from the Dolce Valley Forge Hotel and Valley Forge National Historical Park beginning at 6:15p. Meet the bus at the front of the hotel.

Timothy Beatley is the Teresa Heinz Professor of Sustainable Communities, in the Department of Urban and Environmental Planning, School of Architecture at the University of Virginia, where he has taught for the last eighteen years. His primary teaching and research interests are in environmental planning and policy, with special emphasis on coastal and natural hazards planning, environmental values and ethics, and biodiversity conservation. He has published extensively in these areas.

In recent years much of his research and writing has been focused on the subject of sustainable communities, and creative strategies by which cities and towns can fundamentally reduce their ecological footprints, while at the same time becoming more livable and equitable places. To this end, he is the recent author of The Ecology of Place (Island Press, 1997), with Kristy Manning, which reviews innovative local sustainability practice from around the country and provides practical guidance on creating more sustainable urban form, restorative local economies, and stronger communities. Beatley has recently returned from a year's research in Europe, specifically examining the experiences of some 30 cities, in twelve European countries. The findings of this study have been published in a recent book entitled Green Urbanism: Learning from European Cities (Island Press, 2000). He is also the author of a new book Native to Nowhere: Sustaining Home and Community in a Global Age (also published by Island Press, December, 2004).

Beatley holds a PhD in City and Regional Planning from the University of North Carolina at Chapel Hill.

The current economic downturn continues to affect communities across the country. While it has not been impacted as drastically as many other metropolitan regions, the Philadelphia region is experiencing serious economic challenges. These issues must be addressed with targeted efforts to ensure a successful recovery effort. An expert on urban affairs, Jeremy Nowak will discuss the state of the regional economy, its housing and job markets, and its infrastructure network. He will discuss (1) opportunities to promote a sustainable metropolitan environment by leveraging the region's assets, and (2) the role and impact of Federal and State incentives programs. Jeremy Nowak is CEO of The Reinvestments Fund – a Community Development Financial Institution that serves the mid-Atlantic region – and is a board member of the Federal Reserve Bank of Philadelphia. Mr. Nowak's discussion will alert public

officials and professional planners on what lies ahead, and will lay out a context in which to develop successful policy and planning for the Philadelphia

Jeremy Nowak is the President of The Reinvestment Fund and a nationally recognized leader in urban development. In addition to his work at TRF, Mr. Nowak is a board member of the Philadelphia Federal Reserve Bank. He also chairs the Board of Mastery Charter Schools, a network of four inner city charter middle & high schools in Philadelphia; and Alex's Lemonade Stand, a charity that has raised more \$25 million for pediatric cancer research during the past four years. The author of numerous articles, his recent publications examine policy options for distressed cities; the historical role of religious institutions in community change; the role of development finance for older industrial cities; the challenges of environmental reclamation; and the role of art and culture in neighborhood regeneration. He is currently a Fellow at the Aspen Institute, in a program for entrepreneurial leaders in education, and a member of a Harvard University (Kennedy School) Executive Session on transforming cities through civic entrepreneurship. He holds a PhD from the New School for Social Research and has also been awarded honorary doctorates from Villanova University and La Salle University. In 1995 he received Philadelphia's highest civic honor, The Philadelphia Award.

Plenary Session — .75 CM*
SANDY WIGGINS, Principal, Consilience Inc.

Sandy Wiggins is Principal of Consilience, LLC a national consultancy with a mission to build environmentally, socially and economically sustainable communities. His skillful facilitation has helped birth sustainable master plans for municipalities and institutional campuses as well as sustain-

able regional public policy initiatives. During his three-decade career in the real estate industry, he has led the development, design, construction, and restoration of projects totaling over one billion dollars. He is Past Chair of the U.S. Green Building Council, Founding Chair of the Green Building Certification Institute, and served on USGBC's LEED for Neighborhood Development Core Committee and the LEED 2009 Executive Committee. He was also Founding Chair of the Philadelphia based Delaware Valley Green Building Council.

Sandy's vision and leadership have been responsible for the development of dozens of LEED commercial projects and the nation's first LEED Gold certified homes, which were also net zero energy consumers. Current projects include work with several institutional communities that are endeavoring to define and achieve sustainable operations and several real estate projects that include a net zero energy mixed use community and an environmental education campus that aspires to include the nation's first "Living Buildings."

Sandy is also Chairman of the newly formed e3bank, a triple bottom line bank with a mission to facilitate the transition to a green economy. He is a Director of Silpa Inc., an international green building technical services company and a Director of Meidlinger Partners, a venture capital firm focused on emergent green technologies. He serves as a national Director of the Business Alliance for Local Living Economies (BALLE) and on the Advisory Board of Rutgers University Center for Green Building. He is also an adjunct professor in Philadelphia University's Master of Science in Sustainable Design program and lectures on sustainable business practices and green building at the University of Pennsylvania and other educational institutions.

6:30a – 8:00a ►

Fun Run, Valley Forge National Historical Park
Runners, walkers or even bikers can enjoy our early morning fun workout on the scenic five-mile loop trail in Valley Forge National Historical Park. The pathway loop covers mixed terrain and passes numerous landmarks and historic highlights in the park. It is paved making it suitable for all with ample restroom facilities located along the way. Join us as we follow in Washington's footsteps, and enjoy the spectacular scenic natural beauty of this amazing historic landscape before settling down to a full day of conference activities. Transportation from the hotel will be provided at the Dolce Valley Forge Hotel beginning at 6:30am, returning to the hotel by 8:00am.

Annual Meeting, Awards Program and Luncheon

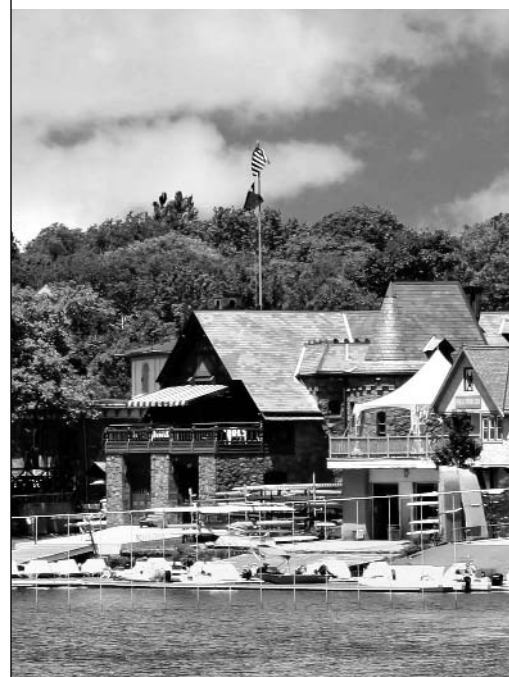

*Sponsored by Delaware Valley Regional
Planning Commission*

It is once again time to celebrate the achievements of Pennsylvanians who shape where we live, work, and play! Join Brian O'Leary, AICP, chair of the PA Chapter Awards Committee, for an inspiring awards program. We will recognize the work of planners, planning officials, and elected officials - and their roles in planning Pennsylvania.

Following lunch PA Chapter President Alex Graziani, AICP will present the "State of the Chapter," highlighting our successes in the past year, and outlining our priorities for your support to contribute to the health of the planning profession and the PA Chapter of APA in the coming year.
