

Integrating HOP Coordination into Access Management Programs

A Professional Development Program
2 CM Credits*

Sponsored by the
PA Chapter of the American Planning Association and PennDOT

SESSION DESCRIPTION

Recognizing key county and municipal roles in managing roadway access, the Department has recently updated Pub 574, *Access Management Handbook*, containing three tiers of access management techniques and model ordinance language for use by Pennsylvania counties and/or municipalities. Training participants will be provided with an overview of the handbook, several case study examples, and a review of the model ordinance contents.

The second half of the training will contain a short section on the Highway Occupancy Permit (HOP) component of managing access, which has recently been updated as an online "e-permitting" system ("EPS"). This new system includes a "Municipality Portal" that provides local governments with direct access to key HOP information as permit applications are submitted. The training will provide municipal managers, planners and engineers with hands-on instruction on this new tool that they will need to be working with for their municipalities.

FEE

PA Chapter of APA Members - No Cost
Non-Members - \$25.00

SPEAKERS (Speakers vary for each location)

Steven Deck, AICP has 30 years' experience in community and transportation planning and has managed and provided extensive training for multiple handbooks on topics relating to transportation and land use management. Examples have included comprehensive planning, transportation impact fees, connectivity analysis, official maps, and long-range transportation planning. He also serves as a member of a municipal planning commission.

Chad Decker, PE, PTOE serves as the Director of Highway and Traffic Services for Dawood Engineering and has over 17 years of professional experience. He received his Bachelor's and Master's degrees from Penn State University. He is a registered Professional Engineer in Pennsylvania and New Jersey and is also a certified Professional Traffic Operations Engineer (PTOE). He is also an active member of the Institute of Transportation Engineers and the American Society of Highway Engineers.

Brandon Peterson, PE serves as a Highway Project Manager for Dawood Engineering. He received his Bachelor's degree from Penn State University. Brandon is a registered Civil Engineer with more than 13 years of engineering design experience and project management on infrastructure projects. He has performed as lead designer and project manager for various highway, drainage, and MPT projects from small business parks up to large PennDOT projects. He is also an active member of the American Society of Highway Engineers

Darryl Phillips, PE, PTOE has over 25 years of experience in traffic engineering and planning, including preparation of traffic impact studies. Formerly traffic engineer for the City of Pittsburgh, he has experience from the municipal side on the relationship between access management, land development and traffic management.

Steve Rozyckie, PE, PTOE has a Master's degree in Civil Engineering from Penn State and is registered as a professional engineer in Maryland, Pennsylvania and North Carolina. His professional career spans 20 years in the consulting sector where he has completed over 60 major transportation studies. A current member of the Intelligent Transportation Society of Pennsylvania, Mr. Rozyckie served as an officer from 2008-2012, including President during 2012. His career has focused on traffic engineering and safety. Currently Steve is managing the traffic engineering component of an access management study of U.S. 220 in Jersey Shore for PennDOT District 3.

Angela Watson, AICP has over 15 years experience and is currently a Senior Transportation Planner with Parsons Brinckerhoff, Inc. Prior to joining PB, Angela worked with the Pennsylvania Department of Transportation (PennDOT) as a Transportation Planning Specialist Supervisor and was responsible for managing the Department's land use related initiatives and policies. She was the Zoning Administrator for the City of Harrisburg prior to being employed with PennDOT.
