

GREEN INFRASTRUCTURE DESIGN COMPETITION BLAIR COUNTY, PENNSYLVANIA

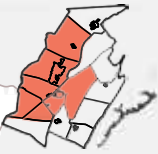

Professionals are invited to a **Green Infrastructure Design Competition** to showcase the expertise of design teams to the public and municipal leadership responsible for stormwater management, and result in installation of three green infrastructure projects by winning competition teams.

The Design Competition will start with an informational Workshop and Design Site Visits

DEC. 15, 2015

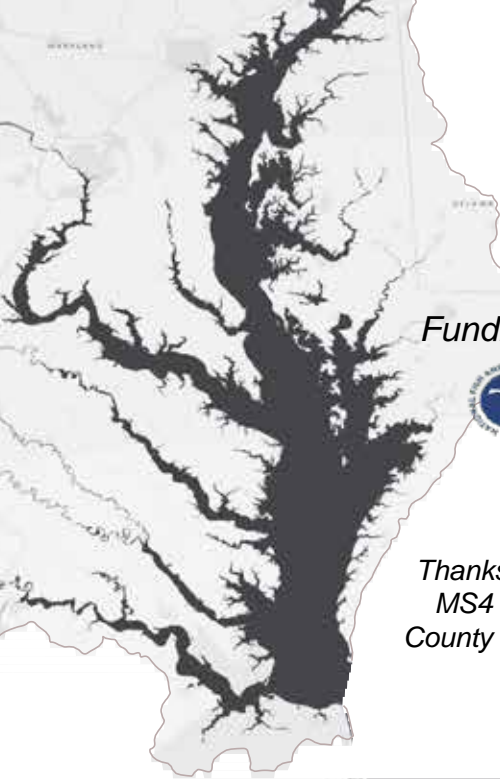

BLAIR COUNTY

Blair County supports 127,000 people in 25 municipalities including 12 small urban MS4 communities in the Little Juniata River watershed of the Chesapeake Bay system.

WORKSHOP SIGN-UP AND COMPETITION REGISTRATION available at:
www.cleanblairwater.org/competition

The Green Infrastructure Design Competition will engage multi-disciplinary practitioner teams to advance sustainable green infrastructure projects that will help Blair County municipalities realize clean water goals and improve community livability.

Funding support from:

Thanks to the Blair County MS4 Workgroup & Blair County Conservation District
