Building a vibrant and healthy future together in North Central Pennsylvania while protecting and enhancing our beautiful natural resources that sustain us

Welcome to Headwaters RC&D

Serving North Central Pennsylvania since 1975

We are the premier resource in the region when it comes to assisting local community groups with obtaining and managing natural resource conservation and community development projects. We focus on building conservation partnerships that enable us to help make important conservation projects happen, and specialize in water quality, trails, agricultural and forestry related projects.

The Power of Partnership

Join us in an exciting new regional partnership program that will build good stewardship of our natural resources. We strive to provide protection to ensure their existence for future generations, while allowing for wise development that allows us to enjoy and benefit from their use.
