Redevelopment Surrounding Capital City Mall

With national trends showing mall properties as underperforming assets that are struggling to maintain sales amidst the raise in online shopping, Lower Allen should be strategic and promote diversification of the Capital City Mall area. While the mall is defying national trends and doing well, opportunity exists for the Township to evaluate mixed use redevelopment opportunities surrounding the Capital City Mall. Mixed uses, such as residential and office, would diversify the Township's regional attraction and increase densities to further promote foot traffic and sales.

As one potential opportunity, the former Borders Book store adjacent to the Bon Ton has remained vacant for years. The land is owned and operated by Bon-Ton along Lower Allen Drive, and includes not only Bon-Ton, but two restaurants including Bonefish Grill and Texas Roadhouse. The area is zoned Regional Commercial (C-4) and would be a strategic location to promote redevelopment to enhance retail offerings at Capital City Mall. Streetscape improvements and additional branding could extend beyond the Bon-Ton property west along Gettysburg Road to complement well-established boutique shops.

Economic Development 1.3.

Meet with the Bon-Ton property owners to determine the potential to redevelop the property to complement surrounding retail development.

Roles for Local Government in Economic Development

Use Zoning and Subdivision and Land Development Ordinances to incentivize private developers

Work with regional entities to be more involved in economic development

Regional Economic Development Organizations (EDOs)

Economic Development Corporations (EDCs)

Industrial Development Authorities (IDAs)

Redevelopment Authorities

Create own Development Authority for most control

- Formed in 2008

Pros and Cons of Forming a Development Authority

Understanding Market Forces

Why is there a vacancy?

OR

Block Competition

Highest and Best Use

Private developer does not require highest and best use of a site

May be an investment property to be held for a long time

Just need to cover carrying costs

Project Goals and Structure

• Long-term Ownership Investment paid overtime through leases

 Redevelop and sell (shorter term) Investment paid through the sale

Public/Private
 Partnership (P3)

Negotiate fees and structure with a developer for ownership transfer

Project Goals

- Looking for highest and best use
 - Bring people and new energy into the Township
 - Revitalize the core with this anchor
 - Let private developers do the rest
- Seek private development partner
- Did not want to own
- Not looking to make money- looking to increase property values

Concept & Proforma

Development Authority needed the support of the Board of Commissioners

Idea for the site was a hotel and conference center

Presented financials for that idea

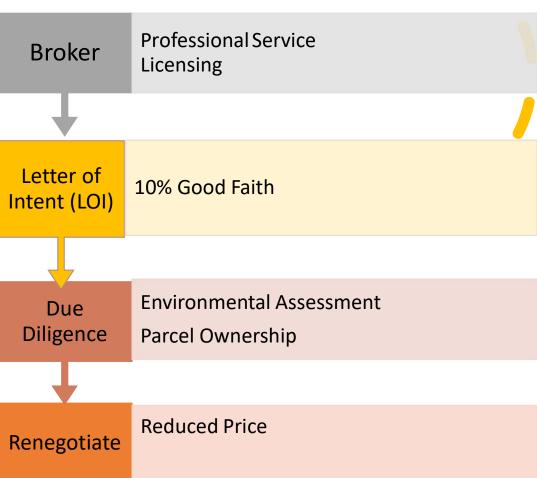

Submitted a Business in Our Sites grant to support the idea
