While walking is the most popular outdoor recreation activity in Pennsylvania, barriers remain in many communities that make it difficult for individuals and families to engage safely in the activity, including a lack of sidewalks or pathways for pedestrians.

Please join The Pennsylvania State Alliance of YMCAs and their partners for this important conversation to promote the U.S. Surgeon General's Call to Action on Walking and Walkable Communities and how South Central Pennsylvania can take charge of this Action.

**You are also invited to attend a Press Conference at the PA State Capitol at 12:15 p.m. for the Keystone State Games Hall of Fame induction ceremony followed by a 30-minute WALK around the Capitol Complex walking route.
