Pennsylvania Department of Conservation and Natural Resources

DCNR Grants

There are a variety of grants available from the Pennsylvania Department of Conservation and Natural Resources (DCNR) through the Central to Coastal and Pennsylvania Program (CC2C) to assist local entities and community organizations in everything from park recreation and conservation. Our grants can fund the planning, acquisition and development of public park recreational trails, trails to open spaces. We also support riparian and wildlife programs and community regional conservation programs designed to improve.

Big game and wildlife education, municipal agencies, non-profit organizations, state heritage areas, pre-qualified local, tribal and federal programs, the project completion. Most programs include a 501(c)(3) or non-profit matching contribution.

For additional information on the grants offered by DCNR, or to apply for a grant, please visit: www.dcnr.pa.gov

How to Get Help

Download one of DCNR's six Regional Office maps:

- 1. North Region: 10111 20th St., Harrisburg, PA 17104
- 2. North-Central Region: 10111 20th St., Harrisburg, PA 17104
- 3. South Region: 10111 20th St., Harrisburg, PA 17104
- 4. West Region: 10111 20th St., Harrisburg, PA 17104
- 5. South-Central Region: 10111 20th St., Harrisburg, PA 17104
- 6. East Region: 10111 20th St., Harrisburg, PA 17104

Bureau of Recreation and Conservation

Mission: To be a leader in establishing community recreation partnerships for advancing the quality of Pennsylvania, for providing the community with recreational resources, and for providing maximum opportunities for all Pennsylvanians and visitors to enjoy.

The Bureau of Recreation and Conservation (BRC) within DCNR works to ensure that connected and between related resource conservation and community well-being – and – between the citizens and the outdoors are met. BRC partners with communities and conservation organizations across Pennsylvania to provide grants and technical assistance support for local recreation projects, trails and greenways, regional trail systems, open space protection, conservation and environmental programs.

Funding for Grants

BRC administers the CC2C program which combines several funding sources to one grant program. Applicants are awarded over a year typically in the spring. Funding sources include the Keystone Recreation, Park and Conservation Fund, the Endowment Fund, the Federal Lands and Water Conservation Fund, the Federal Pennsylvania Recreational Trails Fund, PA1000000 Heritage Area Program, and the Statewide ATRV Reauthorized Accounts.

Legacy of Partnerships Inside/Outside State Parks and Forests

6 Things to know about DCNR

Protects and manages the largest public land mass in the state, including 121 state parks, 2.2 million acres of forestland, and the facilities within them, including 4,700 buildings; 121 dams; 3,720 miles of roads; 842 bridges; 180 boat launches; wastewater plants and more.

Works to conserve the commonwealth's land and water resources through sound ecosystem management to retain wild character and maintain biological diversity. This includes conserving Pennsylvania's forests, trees, and native wild plants, invasive species control, and urban tree planting.

Strives to improve access to quality outdoor recreation experiences for Pennsylvanians, including surveying citizens about their outdoor recreation needs. Pennsylvania has more than 12,000 miles of trails, 85,000 miles of waterways, and 76 natural lakes.

Helps build sustainable, vibrant communities by providing grant dollars to urban and rural areas to conserve their natural assets, and build trails, parks, pools, and playgrounds to provide outdoor recreation for Pennsylvanians close to their homes. Pennsylvania has more than 6,000 local parks.

Promotes and builds sustainable infrastructure through green building. DCNR has 16 LEED certified buildings that incorporate best-in-class green building strategies and practices. One more is going through the certification process, and four are in the planning stages.

Contributes to the economic health of the state through protecting our natural resources. Visitors to state parks generate more than \$1 billion in economic activity each year and support almost 13,000 jobs; local park related spending is \$1.6 billion and 12,500 jobs; and outdoor recreation spending accounts for \$29 billion and 251,000 Pa. jobs.

DCNR Landscape-Based Initiatives

Connecting and Investing Resources Beyond Boundaries

Our landscapes connect us to our history; they are the source of our character as a people, as well as our health, our safety, and our prosperity. Natural resources enrich us economically, yes. But they also enrich us aesthetically and recreationally and culturally and spiritually.

Robert F. Kennedy, Jr.

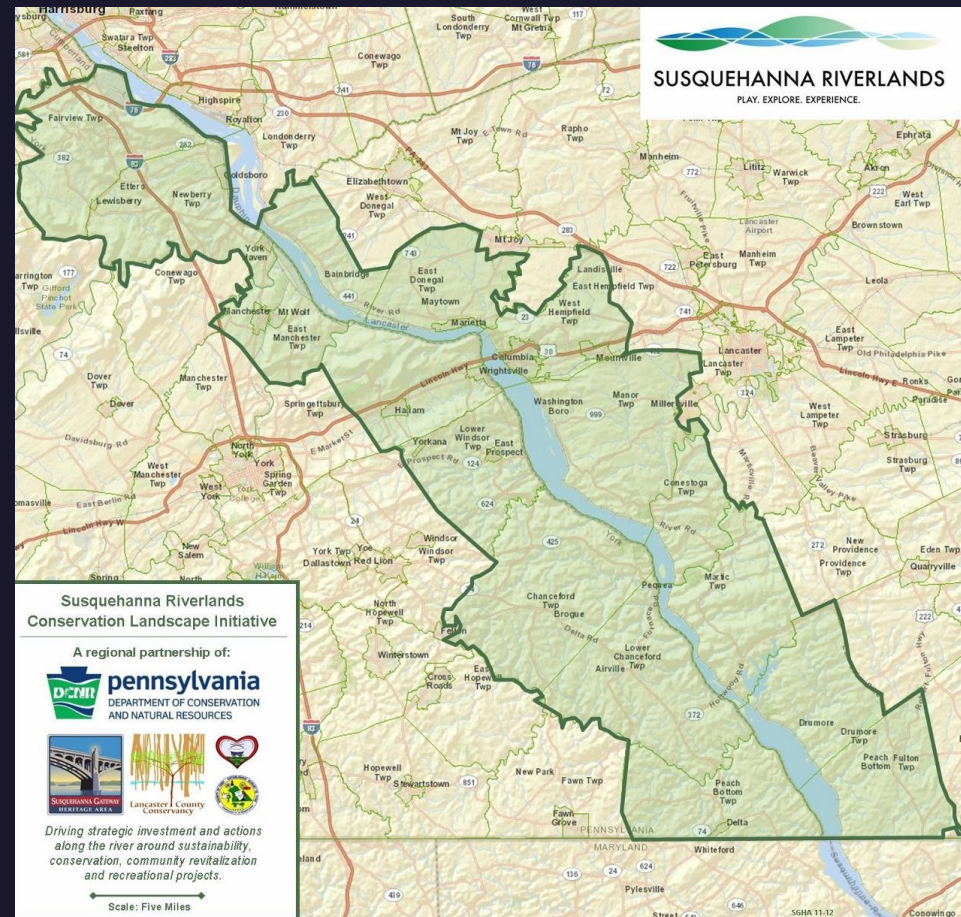

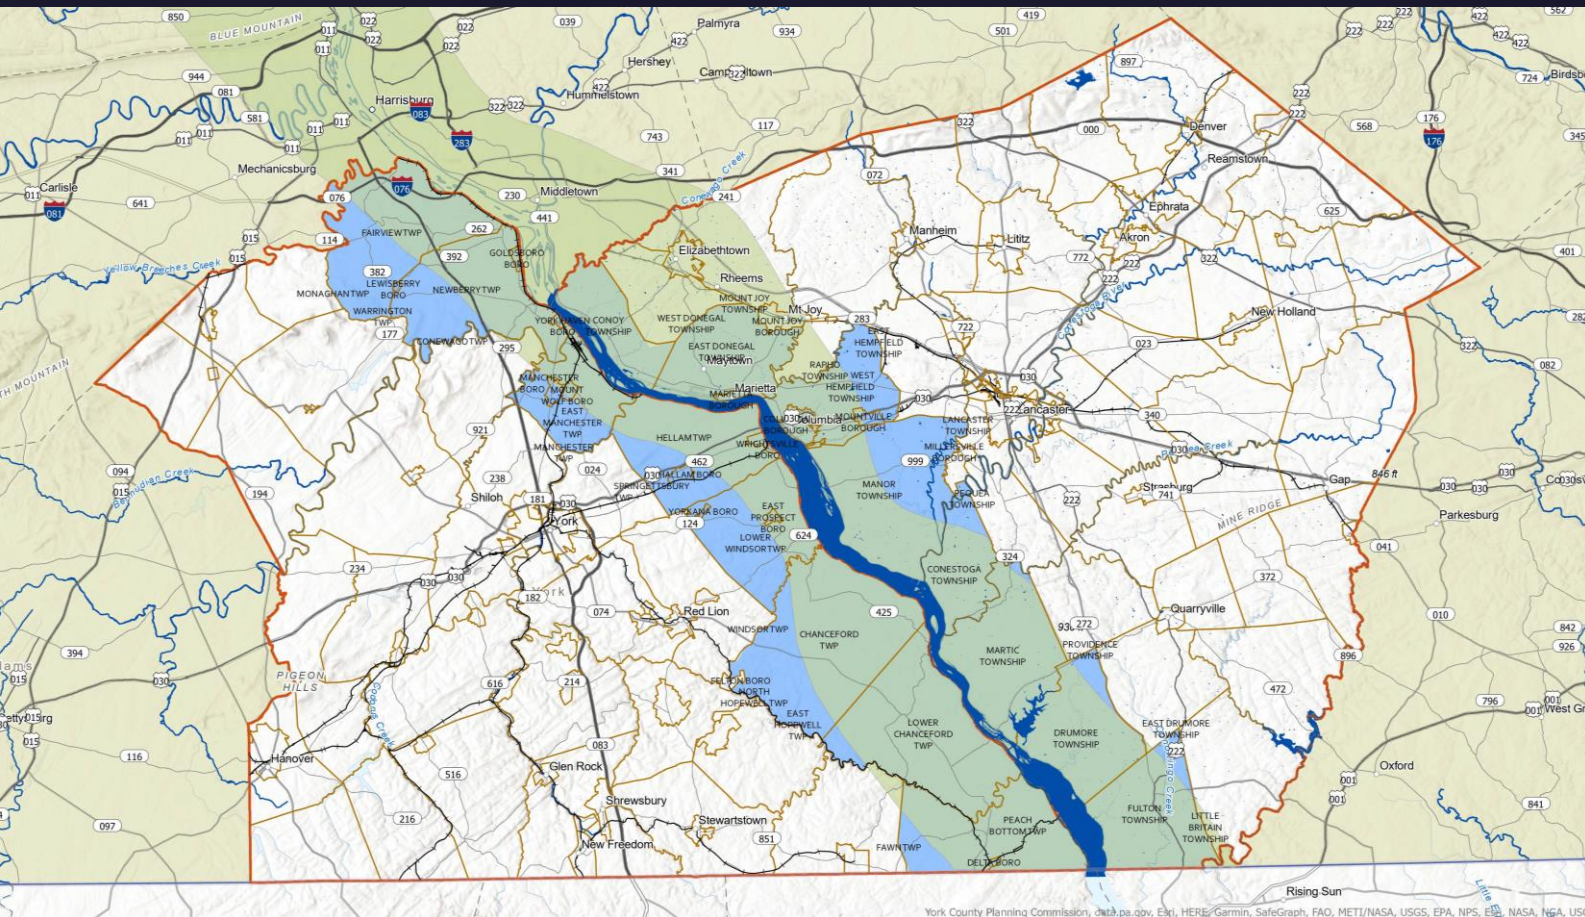

Intentional Investment of Resources in Regional Landscapes

Key Program Elements

- Presence of DCNR lands
- Sense of urgency & readiness
- Civic engagement
- Partnerships
 - Share vision, values, and priorities
 - State government as convener
 - Interagency involvement
 - Leverage other \$
- Strategic investments (resource & grant including mini-grants)
- Deployment of DCNR Bureaus in a PLACE/Region

Lancaster Solid Waste
Management Authority

Landscape Teams work on priorities that:

- Conserve land for parks, trails, and critical habitat
- Protect watersheds and greenways
- Create walking and biking trails
- Protect habitats
- Reduce forest fragmentation
- Revitalize communities
- Contribute to sustainable economic development
- Are often multi-county

Pennsylvania Heritage Areas Program

1989-2022: 30+ years!

2016: General Assembly Establishes Program Within DCNR

Pennsylvania's 12 Heritage Areas are managed separately and are as unique as the history, resources, and communities they work to preserve, enhance, and grow.

Heritage Area Overview

The program is established to identify, protect, develop, enhance and promote the historic, recreational, natural, cultural and scenic resources of this Commonwealth and to stimulate community revitalization and economic development through regional heritage conservation, recreation, tourism and partnerships.

Industrial Heritage Themes

- Iron and Steel
- Coal
- Textiles
- Machine and foundry
- Transportation
- Lumber
- Oil
- Agriculture

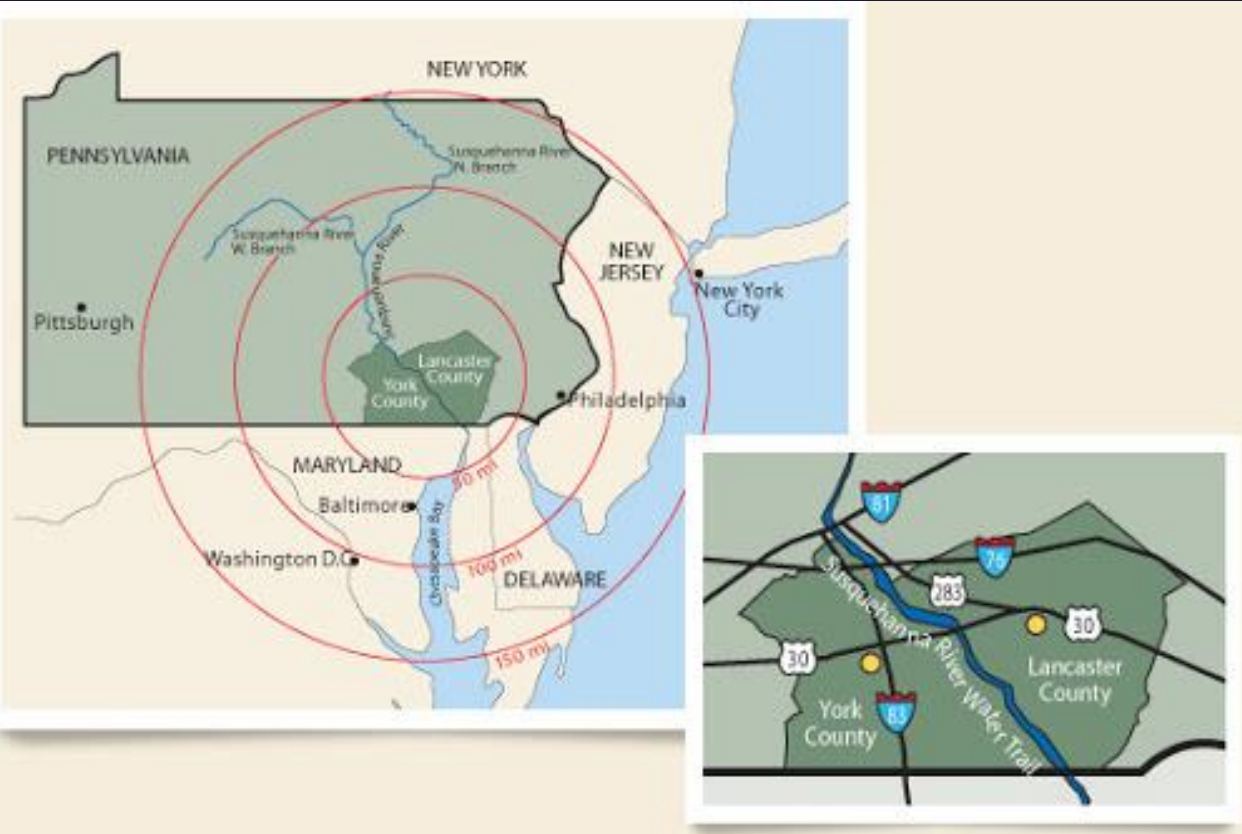

Five Primary Program Goals

- Partnerships
- Economic Development
- Cultural Conservation
- Recreation and Open Space
- Education and Interpretation

20 Years of Partnerships & Projects

The River as a Shared Asset

The River as a Visitor Destination

One More Day on the River

- 10+ million visitors to our region each year
- Attract 5% of visitors to spend 1 more day to experience the river = 500,000 visitors/year
- Average daily spending of \$200+ per visitor
- \$100 million in added economic impact – each and every year!

Focus on the River: Making It a Better Place to Visit

2019-2021 STRATEGIC PLAN

VISION: The Susquehanna Riverlands is a nationally recognized destination for outdoor fun and cultural discovery.

PLACEMAKING

Enhance the quality & appeal of the river's special places and landscapes

Achieve National Heritage Area designation to enhance visibility for the region.

Connect people to the river's history and environment through interpretation, programs, and experiences.

Engage with communities, organizations, and individuals to promote and enrich the river's special places, towns, and landscapes.

TOURISM DEVELOPMENT

Increase the visibility & readiness of the river as a visitor destination

Lead and advance initiatives that support tourism development in the Susquehanna Riverlands.

Develop and promote the Zimmerman Center and Columbia Crossing as complementary visitor hubs for the river.

VISIBILITY, VIABILITY, & CAPACITY

Secure the funding, staffing, & awareness to achieve our vision

Identify and secure support of major donors, increase mid-level donor engagement, and attract more corporate & EITC contributions.

Assess organizational structure, staffing, and Board engagement to ensure capacity to effectively advance strategic priorities.

Develop and implement strategies to increase awareness of our work & engage effectively with partners.

One Hundred Sixteenth Congress of the United States of America

AT THE FIRST SESSION

*Began and held at the City of Washington on Thursday,
the third day of January, two thousand and nineteen*

An Act

To provide for the management of the natural resources of the United States,
and for other purposes.

Be it enacted by
the United States of A

SECTION 1. SHORT TITLE.
(a) SHORT TITLE.—This Act may be cited as the "Susquehanna National Heritage Area Act".
(b) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

A New National Heritage Area

York and Lancaster counties have been named a National Heritage Area. A bill by Sen. Tim Wainwright (R-Pa.) is being considered by the House of Representatives.

Designation for York, Lancaster counties expected to help economy

Tim Wainwright, Sen. Tim Wainwright (R-Pa.) announced today that he has introduced legislation to establish the Susquehanna National Heritage Area in York and Lancaster counties, Pa. The bill, which would create a new National Heritage Area, is expected to be passed by the House of Representatives in the near future. The area would be managed by the National Park Service and would include the Susquehanna River, the York River, and the Lancaster County area. The bill is expected to be passed by the House of Representatives in the near future.

The bill, which would create a new National Heritage Area, is expected to be passed by the House of Representatives in the near future. The area would be managed by the National Park Service and would include the Susquehanna River, the York River, and the Lancaster County area. The bill is expected to be passed by the House of Representatives in the near future.

The bill, which would create a new National Heritage Area, is expected to be passed by the House of Representatives in the near future. The area would be managed by the National Park Service and would include the Susquehanna River, the York River, and the Lancaster County area. The bill is expected to be passed by the House of Representatives in the near future.

(6) SUSQUEHANNA NATIONAL HERITAGE AREA, PENNSYLVANIA.—

(A) IN GENERAL.—There is established the Susquehanna National Heritage Area in the State of Pennsylvania, to consist of land in Lancaster and York Counties in the State.

(B) LOCAL COORDINATING ENTITY.—The Susquehanna Heritage Corporation, a nonprofit organization established under the laws of the State of Pennsylvania, shall be the local coordinating entity for the National Heritage Area designated by subparagraph (A).

The background of the slide is a close-up photograph of various green plants. On the left, there are fern-like leaves. In the center and right, there are larger, broad leaves with prominent veins. A small, light-colored flower bud is visible on the right side. A semi-transparent blue rectangular box is centered over the image, containing white text.

SUSQUEHANNA RIVERLANDS MISSION:

To protect, preserve, and steward the natural lands along the Lower Susquehanna River, emphasizing connectivity, eco-system health, and sustainable public access.

An aerial photograph of a river winding through a vast, dense forest. The river is a light blue-grey color, contrasting with the deep green of the surrounding trees. In the distance, the forest gives way to a flatter landscape under a clear blue sky with a few wispy clouds. The overall scene is a natural, undisturbed landscape.

Coming Together to Think Beyond Boundaries

Our Vision

Provide a strategic plan to guide responsible and inclusive economic development fostering greater opportunity for our entire region by creating a prosperous future for Columbia Borough for the long-term by protecting natural resources, historical assets, and creating stable tax structures.

Our Impact Together

Working closely with the business community, political leaders, and economic development stakeholders throughout the region in order to:

- Enhance the quality of life of our residents
- Foster job creation
- Fulfill an important overarching vision for the continued growth and longevity of our community through stable tax structures

Our Plan in Motion

- Through collaborative efforts, we are starting to see the combined outcomes of partnering developers, investors, economic planners, and members of the community bringing our economic vision to life.
- The following projects are in motion, breaking ground and even planning their grand openings, all working together to fulfill the economic vision for the Columbia Borough.

Columbia Market House

The Columbia Market House, once the epicenter for fresh produce, specialty foods, and Saturday morning market traditions, reopened in May of 2021 with a renewed vision for serving the local community and features year-round farm stands and event space.

Riverview Terrace

- 33 apartments are being finalized on the property, meeting the demand for rental properties in the market.
- Includes attractive amenities such as parking and a first-floor commercial space.
- Monthly rents starting in the \$800s for 1-bedroom units.

Clarion Hotel at the Chip Factory

Choice Hotels International and local real estate firm Cimarron Investments are developing a 60-room, multi-story hotel property in downtown Columbia. The property is an historic potato chip factory, and will preserve much of the original 1876 structure.

This hotel will offer affordable accommodations in the heart of downtown with breathtaking views of the Susquehanna River. A full-service restaurant and rooftop bar will attract overnight leisure visitors and the meeting space will draw business travelers.

Starview Brews

One of the fastest growing business segments is beer tourism, fostered through local breweries. Located in a former tobacco warehouse, Starview Brews opened in early 2022. The new brewery and restaurant located at 224 Locust St. accommodates 90 patrons and serves up many of Mike's award-winning brews which he perfected as a longtime homebrewer and beer judge.

River Park / Columbia Crossings

Visitation to the Trails Center and River Park has grown to an estimated 100,000 people accessing the River Trail each year. In 2022, Columbia was awarded \$2.75 million in state grant funding to fund Phase III of the Columbia River Park Development Plan.

McGinness Innovation Park

- Generates about 100 new quality jobs
- Generates new tax revenue for the borough, county, school district and state
- Attracts STEM startup businesses
- Promotes tech-based career paths for young people
- Provides an entrepreneurial environment where tech first, government, universities, and businesses drive the growth of unmanned industry.

The Future of Our Plan

As we look to the future, we continue to make big plans to foster economic opportunities that will guide our efforts to bring a more prosperous future to Columbia Borough and this region!
